

# FLEXOWASH 100

ABC Flexowash 100 is a biodegradable; water miscible detergent for removing water based inks. Consisting of a blend of detergents, surfactants, and solvents, ABC Flexowash 100 will quickly and effectively remove both wet and dried water based inks from ink fountains, ink pumping systems, Anilox rollers, photopolymer printing plates and dies.

- Non-flammable
- Contains no phosphates
- Low VOC
- Low odour
- Dilutes with water

ABC Flexowash 100 is also recommended for use with both conventional and Flexo printer-slotter, Flexo bag presses using water based inks, and as an all round general purpose cleaner.

## USAGE

May be used in its concentrated form or diluted with water as require to suit conditions.
