

NWM WASH

NWM Wash is a general-purpose non-water miscible blanket and roller wash, and is designed to give a quality result at an economical price. It has excellent ink solvency properties, a controlled drying speed and will clean deep down without causing distortion or swelling to the rubber surface. Regular use of NWM Wash will help prevent the pores of the rubber becoming clogged and thereby maintain the quality and life of blankets and rollers.

- Excellent ink removal properties
- Economical to use
- Safe to use on most presensitised plates
- Helps maintain ink receptivity of blankets and rollers
- Enhances blanket sheet release properties
- Baldwin approved and certified for use on automatic washing systems
- **Also available in a faster drying version**

DIRECTIONS FOR USE

Blankets: Apply NWM Wash using a lint free cloth and then wipe dry if necessary.

Rollers: Use in the usual way.
