

SILICONE SPRAY

Silicone Spray gives effective release and lubrication in all applications where the unique properties of dimethyl polysiloxane fluid can contribute to efficiency. It is highly concentrated to repel ink, moisture, water etc. from all surfaces. Spray on back cylinders to prevent corrosion. For slide and glide effect spray on guillotine blades and tables

- Superior electrical properties
- Water Repellent
- Non Toxic
- Non Staining
- Gives corrosion protection

DIRECTIONS FOR USE:

Shake. Hold can upright and spray at a distance of 12" to 18" from work
